Organisation chart

OGP

Management Committee

- **JIP15 – Standards Committee**

- Formatting and editing of ISO TC67 Standards, primarily for preparation of documents in ISO Format “Ready” for DIS and FDIS.
- GBP 312k raised from committee members, 1999-2007
- Future funding from OGP budget (from annual member fees).

- **JIP19 – Offshore Structures Committee**

- Technical editing to develop the ISO 19900 series of standards for ISO/TC67/SC7
- ~ GBP 1.2 million raised from OSC members, 2000-2008
- of which ~ GBP 230k for 19905 (Jackups) since 2007

- **JIP25 – Offshore Structures Committee**

- Case studies and calibration for ISO/DIS 19906 (Arctic) for ISO/TC67/SC7/WG8
- ~ GBP 200k raised from “arctic technology” groups in member companies, 2009
- Plan for Calibration reports to be a publicly-available OGP report
- Surplus funds intended for CSA’s WG8 travel fund

OGP future support for SC7

- **OGP Standards committee (JIP15)**
 - Could help with ISO Formatting costs for DIS & FDIS
 - Access via Chair of ISO/TC67 or OG Alf.Reidar.Johansen@ogp.org.uk
- **JIP19 Offshore Structures Committee**
 - ~ GBP 85k now remaining uncommitted
 - SC7 advice on funding needs and priorities is requested
 - Notional allocations agreed for 19901-3, 6 & 7 if needed, subject to ISO project leaders making proposals for delivery
 - JIP19 will be terminated when funds are exhausted
- **Potential New OSC JIP for 19900 series Maintenance**
 - New scope and a good business plan focussed on SC7's plans for future maintenance
 - OGP offers to participate in SC7 discussions (or ad hoc group as proposed by UK) for funding the maintenance
 - Aspiration: defined in 2010 for funding in 2011
