

ISO Central Secretariat editorial comments*
Commentaires rédactionnels du Secrétariat central de l'ISO**

ISO/DIS 10426-3

ISO/TC 67/SC 3

* To be taken into consideration when preparing the revised draft.

** À prendre en considération lors de la préparation du projet révisé.

This document has been accepted for the 5-month DIS vote, but there are several minor problems which will need to be addressed when preparing the revised text for FDIS vote:

1) The normative reference ISO 10426-2 was at DIS stage in June 2001 when it was deleted from the TC 67 Work Programme. Needless to say, it would be advantageous if this Part 2 were reinstated on the Work Programme and at DIS stage before publication of Part 3, so that users of Part 3 would have easy access to Part 2, which they need in order to comply with Part 3.

2) Please review your use of the word "should" throughout the document and particularly in the Procedures subclauses. "Should" means a recommendation only, not an instruction or a requirement. I think some of your "should"s would be more correct as "shall"s.

3) There are two subclauses 6.5.1.7.

4) In 7.8.2 and ff, what does B_c actually stand for (in words)? If it is a variable, please put in italics, Times New Roman.

5) Text under 10.5, 11.3.10 are hanging paragraphs -- please correct.

Thanks in advance for your kind cooperation.
