<b>ISO/DIS 13626</b>	<b>ISO/TC 67/SC 4</b>

\* To be taken into consideration when preparing the revised draft.

\*\* À prendre en considération lors de la préparation du projet révisé.

If applicable, the references to API Spec 9A and RP 9B shall be substituted with ISO/DIS 10425, *Steel wire ropes for the petroleum and natural gas industries -- Minimum requirements and terms of acceptance*. Please check whether other standards prepared by ISO TC 105, *Steel wire ropes*, may be more suitable for reference than API/ASTM documents, e.g. ISO 7595 and ISO/TR 7596 regarding socketing procedures.

Please note that literature references for calculation procedures belong in a Bibliography at the end of the document.

Thank you in advance for your kind cooperation.
