* To be taken into consideration when preparing the revised draft.

** À prendre en considération lors de la préparation du projet révisé.

This document has not been accepted because it requires the following changes:

1. Symbols

Symbols for quantities are single letters sometimes with subscripts or other modifying signs (see editorial comments for Part 1). See for example, ID which is an abbreviation and not a symbol (d_i or D_i would be more suitable). Please be consistent in the use of symbols. Use only one symbol for one quantity. See for example, the use of D_i in Table 11 and ID in the text.

2. Equations

Please review all of the equations. There are numerous equations which are incomplete. On the paper copy or in the electronic file, only an error message appears.

Thank you for your cooperation in this matter.
